### **DETAILED ACTION**

Claims 1-13 and 18-28 are pending in the application.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 18, drawn to the compounds of formula I and II where  $m = 0$ .

Group II, claim(s) 1-13 and 18-28, drawn to the compounds of formula I and II where  $m = 1$ .

Group III, claim(s) 1-6 and 18-21, drawn to the compounds of formula I and II where  $m = 2$ .

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions of Groups I-III are drawn to structurally dissimilar compounds of formulae I and II. They are made and used independently. One does not require the other for their use. If, say, the azepane substituted compounds of formula I and II where  $m = 2$  of Group III, were anticipated, applicants would not acquiesce in the objection of any of the Groups I-II there over or vice-versa and, thus, they are not linked to the same or corresponding special technical features.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
